GERMANIUM and CANCER – MIRACLE CURE!

Germanium is considered priceless when it comes to the cure for cancer. It is expensive and rare. Jean Ross, Karl Loren's wife, used germanium extensively during 2004 when she was battling cancer of the esophagus. She believes that germanium was the primary reason she was pronounced "cured" of cancer by 2 medical doctors and why 21 biopsies during surgery found no trace of cancer.

Germanium has shown results when it comes to tumor reduction (in colon, prostate, breast, lung, ovarian and cervical cancers), boosting the immune system, and relieving Rheumatoid Arthritis.

THE expert on Germanium, Dr. Asai, wrote an extensive book on Germanium called Miracle Cure Organic Germanium.

The entire book is published on Karl Loren's website here: <http://www.karlloren.com/ogc/research/books/book1/book1.htm>

Feel free to read it as it contains a wealth of information on germanium and its use and value.

Several years ago Karl traveled to Japan. He spent about 10 days in Japan and visited two different manufacturers of germanium. Only one of those, Tokai Sanygo, had the legal approval of the Government to manufacture germanium for resale without a prescription.

He also visited the Asai Research Institute (named after the famous Dr. Asai, who discovered germanium as a cancer treatment, and developed a form of it on which he got many patents.) He also visited others in Japan about this remarkable substance.

If you know about this amazing substance, and want it, Vibrant Life is the only legitimate source in the US.
