- MSM is both a detoxifier and a "penetrant"!
- The body does not need drugs!
- How to take "Supportt™ Arthritis" (Herbal MSM)
- Testimonials from people suffering from arthritis, back pain -- and more!

Introduction to natural pain relief with Organic Sulfur

MSM stands for Methyl Sulfonyl Methane, organic sulfur. When it rains, MSM falls on the ground and is used by plants. Your body needs MSM and contains some but, if you had more MSM in your body, you would endure far less pain and suffering from arthritis, back pain, Fibromyalgia and muscle soreness.

Vibrant Life has the exclusive license to represent one of the largest manufacturers of MSM in the world and brings you this wonderful substance at prices that are generally lower than any other source.

There are no additives or fillers. Purity is established at 99.5% pure MSM, by independent laboratory analysis, with 0.5% moisture. You should take about 10 to 40 capsules per day, or if using the loose powder take between 2 to 4 heaped teaspoons per day - enough to eliminate the pain. **There is *no toxic overdose*.**

"Support Arthritis": Organic Sulfur + Ayurvedic herbs = SUPERIOR PAIN RELIEF!

Vibrant Life offers the highest quality MSM available -- plus we now have an exclusive new product we call **Supportt™ Arthritis** (Herbal MSM).

Thousands of years of Indian history with Ayurvedic Medicine and millions of people TODAY suggest that the pain and suffering from arthritis has been solved in India.

What is not much appreciated in the Western world is that Ayurvedic medicine is the most used medical system on the planet. For many countries emerging out of a third world status with today's modern knowledge, Ayurvedic medicine seems far more attractive than the drug-centered, costly allopathic medicine of the West.

For thousands of years of Indian history Ayurvedic Medicine has been successful in the treatment and cure of ailments and disease. Now the combination of the already established effectiveness of MSM and the success of Ayurvedic herbs is conveniently obtainable in **Supportt™ Arthritis** (Herbal MSM).

This is the safer solution to arthritis pain that actually works!

Organic Sulfur (MSM) is a detoxifier and a "penetrant"!

MSM is Methyl Sulfonyl Methane a very close cousin to DMSO. You take DMSO and boil it, and one atom of oxygen is added to the DMSO molecule, turning it into DMSO². This is "MSM."

DMSO is well known as a “carrier.” By that we mean if you mix any of many other different substances with the DMSO, and apply this mixture (liquid) to the sole of your foot you will get a different taste in your mouth, in the same few seconds.

The difference in taste will depend on the other substance, which is added to the DMSO. This substance is carried very quickly through the body to the mouth to be tasted.

MSM has the same properties as DMSO on a more subtle scale.

In the case of *Supportt™ Arthritis* (Herbal MSM), the powerful pain relieving capabilities of Ayurvedic herbs are carried through the body.

MSM is a detoxifier and a “penetrant”!

You have arthritis and have tried taking drugs, they are not helping. You have noticed the warnings of the adverse side effects of prescription drug solutions. This is a dilemma that many are suffering with.

The body does not need drugs!

Virtually all medical drugs are designed around the concept that some germ or some part of the body needs to be suppressed or killed! Your body is NOT ill or is not in pain because of a deficiency of a drug! The body does NOT need drugs!

The body DOES NEED food, vitamins, minerals and other nutrients, to continue living and to repair itself.

Ayurvedic medicine works on this concept. It uses herbs that are basically foods. The ancients observed for thousand of years, which of these plants, in what dosages, often very small, could provide the nutrition the body was lacking. Some of these herbs also assist in the detoxification. Ayurvedic herbs, if properly extracted, and also properly taken, are often at least as effective as prescription pain drugs, without the harmful side effects.

How to take "Supportt™ Arthritis" (Herbal MSM)

For the optimum effectiveness of this herbal MSM product, take one heaping teaspoon (5mg), one to three times per day to start. Less may be effective, safer. Place on your tongue. Allow the powder to come into contact with the saliva and move it around with the tongue. This enables the herbal powder to mix with the enzymes in your saliva so that the herbs correctly and fully absorb into your body, ensuring the best results.

You can also dissolve the powder in three to five ounces of water or fresh fruit juice, and drink slowly during the day. Do not mix with hot water or carbonated drinks.

By combining this knowledge with the already established effectiveness of MSM, the marriage of Ayurvedic medicine and Western technology is now available in Supportt™ Arthritis (Herbal MSM)

Testimonials

At Vibrant Life, we receive amazing testimonials from people from all across the world. They love to tell us about the great successes they have had with our products. Most of these testimonials tell of life changing events. We are very proud of these testimonials and decided to share a few of them with you.

These people have made the correct decisions to stay away from drugs!!

You will be absolutely amazed at what some of our customers' experience. These testimonies mean that our products help those who take responsibility for their own health.

Our formulations help so many people and that is exactly what we wanted to do!

If you are interested in reading more of these testimonials, please visit our website at: www.oralchelation.com and click on "Testimonials".

Dear Karl,

I am a very happy man now after suffering severe Arthritis in my neck, Fibromyalgia and Crohn's Disease for several years, but getting relief for all these with MSM (and Calm Cream). A little more than one year ago I discovered the MSM, and in August I ordered first time from Vibrant Life my first 10 or 20 kgs of bulk MSM. Now I am an owner of a company (<http://finmsm.cjb.net>), which imports Vibrant Life's excellent products, not only MSM powder but Calm Cream, as well, almost every two weeks!

There are so many examples of "Miracles" in the growing mass of

my clients that I hardly can understand! The major part of my clients is people who have gone from doctor to doctor, from physician to another to get relief without help, but at last they call me to get MSM!

Mikko Oinonen

Dear Karl,

My life was miserable; at 38 a bent over almost crippled person who was racked in pain. I'm 38 and have suffered from CHRONIC lower back pain for 10 years. The last three have been horrible, sometimes my back would spasm and I was unable to get off the bed or even move for that matter. I tried everything including a large daily dose of over-the-counter pain pills.

Then...someone suggested MSM and I eagerly went on a 6000mg a day regiment (desperation had now set in). In two weeks my pain lessened by 80 %!!!! In 4 weeks no pain at all! Nothing! It felt so great that one morning I woke up and was so overcome with joy at feeling "normal" I almost broke down and cried...

All I can tell ANYONE reading this; trust me it works!

Happy customer!

Dear Karl,

I am very pleased with the Pure Bulk Powder (MSM) ... I have found it to be a great help in the healing process and relief from inflammation. I take one heaped teaspoonful in the morning and one in the evening. If I would happen to get some pains developing (on a very rare occasion when I'm tired, or have been

working "overtime"!)) I would take a spoonful, with almost instant relief am prone to thin skin on my legs, as I think I told you, (being in my 79th year). So taking your tip, I dissolve less than a 1/4 of a teaspoonful of the powder in a teaspoonful of cold water and dab it gently on my legs each morning, and sometimes at night. This and the intake orally, presumably, have helped to remove all the inflammation and itch I had on my legs that had surrounded previous breaks in the skin...

Gladys

Being a self employed personal fitness trainer I find that your site is probably the most extensive, unbiased one with high integrity. I refer your site to all of my clients as well as my family & friends. Especially when it comes to MSM!

People think I'm overboard on it but when they try it they soon become hooked!

One man has had a lot of relief from his asthma & doesn't need to use his breathing machine as often. Another man, 83 yrs. old who used to use a walker to get around now just uses a cane. Whenever I bring MSM around his face lights up! He (Moses) calls them his 'happy pills' because his knee pain goes away & he can walk easily.

God Bless you & your committed work!

Deanna
